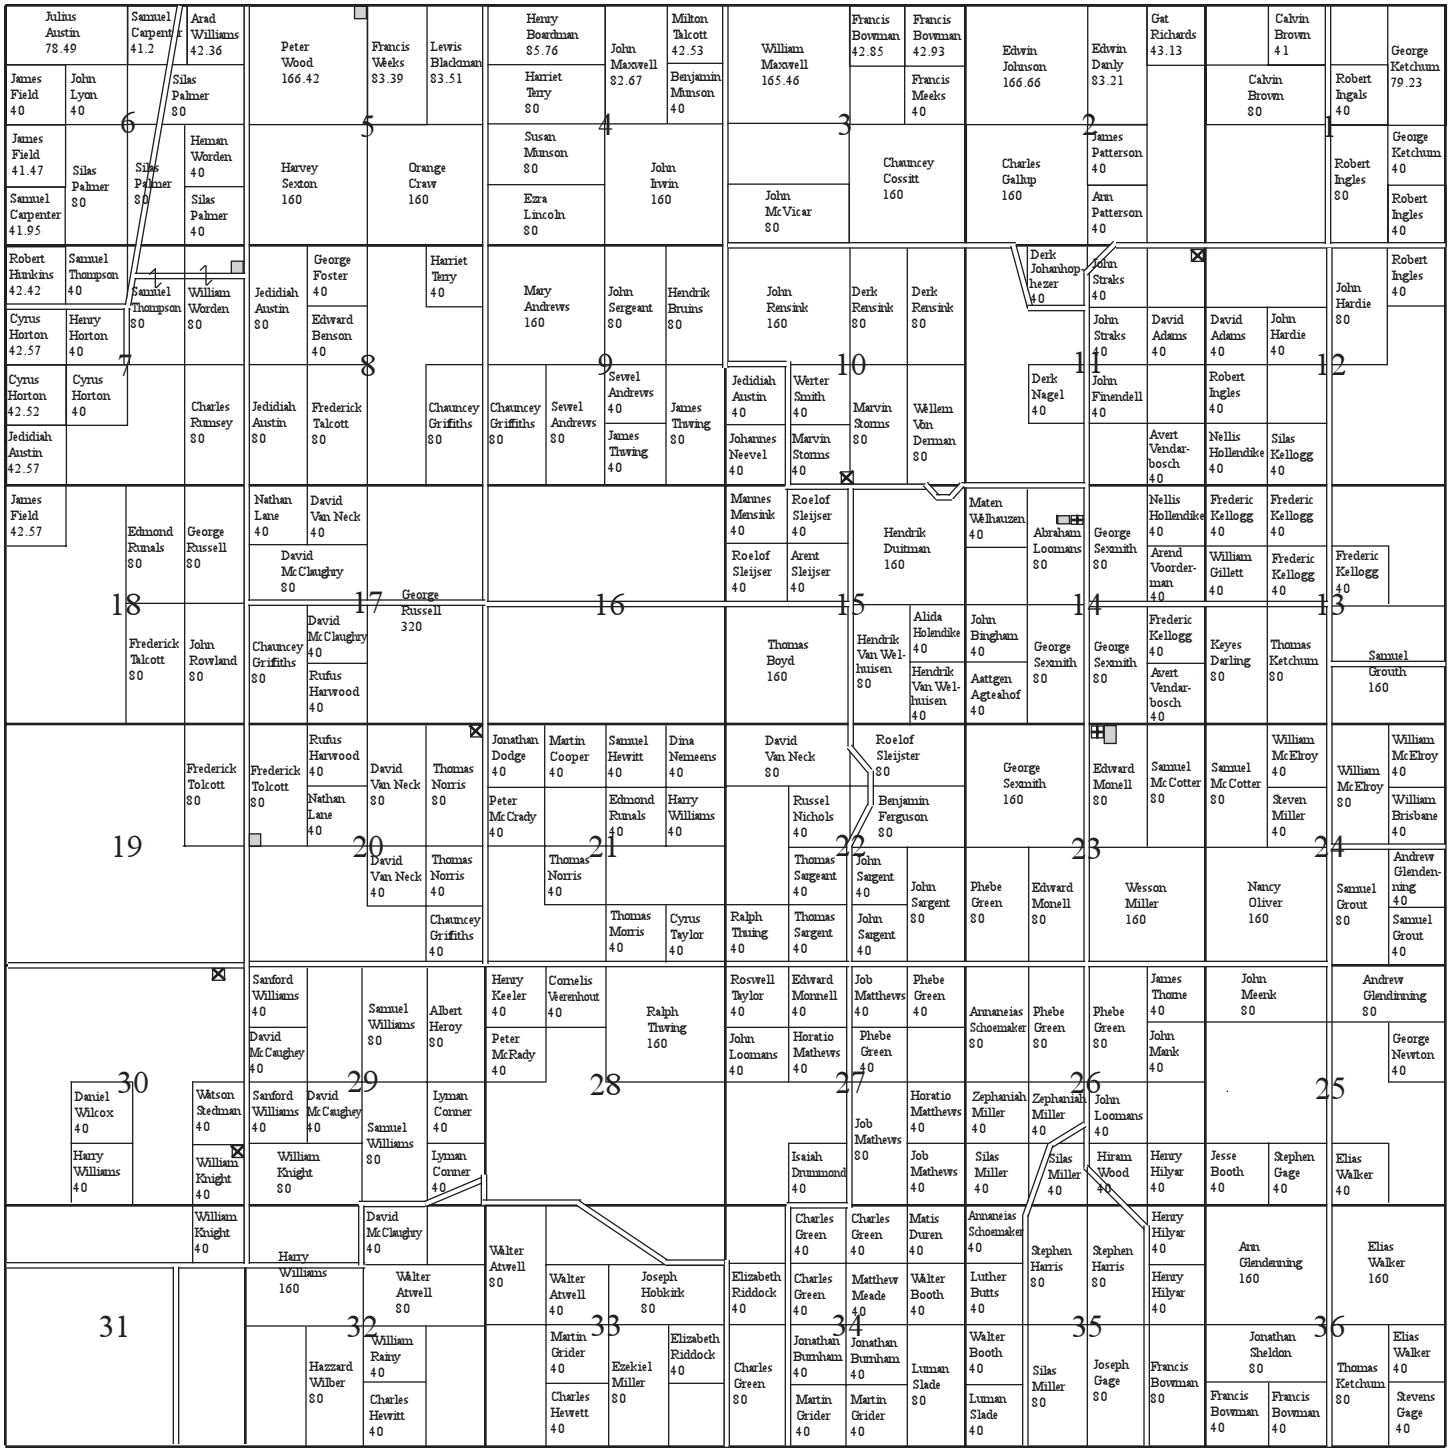
Town of Alto (14N, 14E)
Land Patents


These records are compiled from the Federal Bureau of Land Management electronic database. Data is retained as recorded there except for obvious errors in transcribing the original documents. Acreages are calculated from patent totals and are approximate. For a more complete discussion, see the Alto and Area Land Patents page. Roads, cemeteries, and schools are included from the 1862 town plat map (W. T. Coneys, *Map of Fond du Lac County Wisconsin*, pub. by Bogert & Haight) for reference. Note: BLM records credit E1/2SE of section 9 to H. Bruins and J. Thwing. Inspection of the document facsimilies is inconclusive, although the entry for Bruins can be read as E1/2NE, and that is how it has been placed on this map.
